Some Message here.

Skills.

Some information here about my skillset in the context of work I've done already. Broad skills that I have, maybe list my soft skills here?

- HTML
- CSS
- JavaScript
- Version control
- Python
- Flask
- MongoDB
- Bootstrap
- Materialize
- Python Flask

Selected Projects.

Weddings by KARA
wedding photography website

goals: create a website that will entice couples engaged to be married to hire Weddings by KARA

features: a customized Squarespace website that highlights their strong wedding photography brand image. Multiple galleries, informational pages as well as an integrated blog.

my role: creative, concept, copywriting, UX, production, photographic editing, video production, creative, seo, technology

Karina Finegan CV
online cv website

goals: create an online CV for up-and-coming full stack web developer Karina Finegan.

features: a single page scrolling website that includes Karina's work history, her skillset and a portfolio of her work

my role: creative, concept, copywriting, UX, production, photographic editing, illustration, technology

Acupuncture Clinic
website for a Dublin-based acupuncturist

goals: build a website to showcase and drive business to Acupuncture Clinic in Dublin.

features: landing page, about page, information about the kinds of treatments available, contact page with locations and opening hours.

my role: production, photography, photographic editing, UX, design, creative, technology

Port Pictures
website for an Irish Production Company

goals: they require a re-design to modernise their website..

features: about section, photography & video galleries, contact information and interactivity.

my role: production, photographic editing, UX, design, creative, technology.

Captain James Kelly - Memorial Website
website for information about the late Cap. James Kelly

goals: to create a website to act as an information hub about the man, his life and his history.

features: still in discussion. But the site will definitely require pages for information and galleries. For ease of updating by the site owner it will probably be built with a CMS.

my role: production, photographic editing, UX, design, creative, technology.
